MOVING AHEAD IN 2023

New Year. New Opportunities.

As we move into the new year, we want to look ahead while also recognizing the past. We all know that the last few years have been tough on the healthcare system in many ways, but our job is to enable our partners to find success in what is happening today. That is why our team believes in flexibility and adaptability, no matter the circumstances. With 2023 in full swing, we look forward to the opportunities that present themselves as we drive forward, together.

FULFILLING OUR MISSION AND MAKING AN IMPACT

A message from our president, Preston Smith

In 2023, we look forward to continuing to implement our Jackson Healthcare family values of Others First, Growth, and Wisdom. They serve as the "true north" and guide our strategy, hiring practices, and philanthropic efforts.

LEADERSHIP PERSPECTIVES

Privately managed versus private equity

The medical industry continues to find ways to meet modern challenges, which has resulted in many healthcare groups considering anesthesia management partners. However, in a market full of choices, how do you know which one is the right fit? Premier Anesthesia's Senior Marketing Manager, Jennifer Hershiser, and VP of Provider Engagement, Wendy Pasanen, discuss the many factors to consider, especially when it comes to choosing a partner backed by a private equity firm compared to the benefits offered from privately owned management companies.

WE APPRECIATE YOUR DEDICATION

Happy National CRNA Week and Physician Anesthesiologists Week

Moving into January and February, we recognize National CRNA Week (January 23rd – 29th) and Physician Anesthesiologists Week (January 29th – February 4th). These providers are integral to the healthcare system, from saving lives and improving patient care to spearheading innovative ideas. As part of the anesthesiology family, we are honored to work in such a vital industry, and we will continue to highlight and celebrate the essential work that you do every day.

PREMIER ANESTHESIA
The pros of permanent anesthesiology positions.

Part one: the pros of permanent anesthesiology positions

Permanent placements tend to be preferred by providers who prioritize structure and consistency. However, there are several other advantages, and we look at some of the main benefits of being a permanent employee within a healthcare system.

The pros of locum tenens anesthesiology positions.

Part two: the pros of locum tenens anesthesiology positions

For some in anesthesiology, there are upsides to choosing a locum position depending on professional and personal pursuits. Selecting the option that best aligns with goals and lifestyle will enable providers to get the most out of each opportunity.
