

HERE WE GROW AGAIN

We welcome new hires to the Premier Anesthesia team

We're thrilled to welcome eight talented new team members who have joined us over the last several months and will help us continue to provide top-notch anesthesia management services. With their expertise, we're confident that we will continue to deliver customized anesthesia management that is responsive to your needs.

PROFESSIONALS MAKING AN IMPACT

We Recognize National Locum Tenens Week

National Locum Tenens Week, from August 14th -18th, is dedicated to recognizing the incredible contributions of locum tenens healthcare professionals. As a trusted anesthesia management partner, we understand the importance of what these vital healthcare professionals do. Our mission is to connect the best anesthesia providers with the ideal medical facility, even if it's just a temporary position. We greatly appreciate the dedication and hard work our providers show daily because we know it truly matters to the patients, hospitals, and clinics we serve. Thank you from all of us at Premier Anesthesia!

Is an all-CRNA practice right for your facility?

Traditionally, anesthesia has been administered by a team of CRNAs and anesthesiologists. While a balanced mix of both professionals is often preferred, an exciting movement is emerging - the rise of all-CRNA practices. With an impeccable safety record and a commitment to delivering top-notch, cost-effective care, all-CRNA staffing models are revolutionizing the field.

Why regularly evaluating your anesthesia department is vital

Assessment of anesthesia services is a pivotal component in the success of hospitals and clinics. Whether a facility possesses an established anesthesia team or is at the initial stages, a comprehensive review should cover key aspects such as leadership, quality, staffing arrangements, and clinical outcomes, all aimed at achieving organizational objectives.
