

GROWING THE TEAM

Announcing the appointment of two Regional Medical Directors

We are excited to announce the recent promotions of Miguel Cervantes III, MD, MBA, FASA, and Anthony Dominic, DO, to the positions of Regional Medical Directors. With over 40 years of combined experience, Dr. Cervantes and Dr. Dominic will be responsible for improving communication, processes, and quality across the board. We're confident in their ability to continue delivering on Premier Anesthesia's mission and look forward to embarking on this next chapter.

CHANGES IN THE INDUSTRY

More evidence that the way a partner is financed matters

The talk of Envision's bankruptcy has been making the rounds lately. At Premier Anesthesia, we are mindful of the challenges that this news brings to many organizations. That's why it underscores the importance of a stable anesthesia partner not driven by private equity investors seeking short-term gains. As a privately held anesthesia group, we are committed to prioritizing the long-term goals of our partners and working closely with hospital leadership to make informed decisions. If you want to learn more, don't hesitate to [contact us](#).

The benefits of an anesthesia-focused revenue cycle management approach

Anesthesia billing is a unique and complex process. That's why healthcare facilities often partner with a management company to handle their financial needs and maximize profitability. However, not all anesthesia management partners are created equal. Some only focus on medical billing, ignoring the entire concept of a revenue management cycle, which can provide additional advantages.

Hospitals vs. clinics: How an anesthesia management partner makes a difference for both

Although hospitals and ASCs may vary in some of their services, they face similar challenges in managing anesthesia programs – they prioritize providing quality care while also handling compliance, insurance, and regulatory changes. Both can achieve their goals with the right anesthesia management partner providing proven strategies, tools, and experienced guidance.
