

INTERNATIONAL PATIENT SAFETY DAY

Join Us in Recognizing the Importance of Patient Safety

In September, we observe International Patient Safety Day on the 17th and reaffirm our commitment to ensuring the highest level of care and safety for all patients undergoing anesthesia. At Premier Anesthesia, patient safety is at the heart of everything we do. We continuously strive to enhance our anesthesia protocols, empower the dedicated team of anesthesiology professionals we work with, and employ the latest technology and best practices. Our mission is clear this month and always: To provide anesthesia management that prioritizes patient safety, comfort, and positive outcomes.

Enhancing anesthesia department efficiency through data analytics

In today's rapidly evolving healthcare landscape, medical facilities constantly search for ways to improve patient care, streamline operations, and reduce costs. One area that requires precision is in the anesthesia department. By harnessing the power of data analytics, hospitals and clinics can enhance efficiency, extend physician oversight, and make better decisions for patients and staff.

What questions should be asked in an anesthesia job interview?

Given the high demand and limited availability of anesthesiology specialists, coupled with the fact that surgical services historically contribute around 60% to a healthcare facility's revenue, it is imperative to strategically select the right individuals for your perioperative team, but what are the best questions to consider when conducting interviews for potential hires?
