

WE EXTEND GRATITUDE

Nurse Practitioner Week and Perioperative Nurse Week

In November, Premier Anesthesia acknowledged the significance of Nurse Practitioner Week and Perioperative Nurse Week. This year, Nurse Practitioner Week not only celebrated the outstanding contributions of these healthcare providers but also aimed to draw attention to the need for removing outdated barriers to their practice. The focus was on advocating for nurse practitioners to be granted the opportunity to fully utilize their expertise and education. Simultaneously, Perioperative Nurse Week honored the accomplishments and impact of perioperative nurses in the medical field. Recognizing their indispensable role in patient care before, during, and after surgical procedures, both annual observances underscore the remarkable contributions of our nursing professionals and their pivotal role in advancing health and well-being. A heartfelt thank you to all the nurses for the invaluable work you do!

MEET THE JOYCES

The Secret to Successful Anesthesia Management

We've just introduced a fresh video series called "The Two Joyces," offering a humorous take on the hurdles hospital leaders encounter in decision-making. Watch as "Old" Joyce, buried in paperwork and overwhelmed, transforms into "New" Joyce, liberated from concerns like last-minute cancellations and cumbersome forms after partnering with Premier Anesthesia.

Beyond High Salaries and Sign-On Bonuses: What Attracts Anesthesia Providers?

Recruiting specialized medical professionals like anesthesiologists and CRNAs is challenging. While competitive salaries matter, attracting top talent involves much more, like promoting a vibrant workplace culture, emphasizing work-life balance, building a solid reputation, and encouraging professional development. Read more about how an anesthesia management firm can streamline this process.
