

WORLD ANESTHESIA DAY

Celebrating a Medical Milestone

Every year on October 16th, medical professionals worldwide celebrate World Anesthesia Day, marking the discovery of anesthesia and remembering William T.G. Morton, a dentist who successfully used anesthesia during surgery in 1846. Today, over 230 million major surgeries are performed under anesthesia annually, highlighting its importance as one of the top medical breakthroughs in history. Premier Anesthesia joins hospitals, clinics, and patients while we honor the contributions of countless doctors and nurses who have helped advance this lifesaving discovery.

Switching Anesthesia Management Partners Can Be a Seamless Transition

For hospital leadership, contemplating a switch in anesthesia management partners may initially appear daunting and stress-inducing. The pivotal role that anesthesia plays in patient care means that any disruptions could have far-reaching consequences. However, transitioning with the right new partner and a well-executed strategy can be surprisingly smooth and stress-free.
